RE: Recent Lead testing at water fixtures in Twin Ridges Home Study Charter School

Dear Ms. Soper:

I am pleased to inform you that all the locations tested at Twin Ridges Home Study Charter School are in compliance with acceptable lead levels. There was no detectable lead in any of the samples tested. Attached to this letter is the Lead Sampling Plan for lead testing in the water. The laboratory results are also included. There is nothing further that needs to be done at this point. Please feel to contact me if you or anyone on your staff would like to go over the laboratory results.

If you have any questions, please call me at 530-273-6869.

Sincerely,

Fred Waymire

Treated Water Superintendent
